AL FANIAH, a leading Mechanical contractor has been established in 2006. The Company specializes in Contracting, Department Supply & Installation of mechanical systems and projects including Air Conditioning Preventive maintenance and fast breakdown services of residential, commercial, Pharmaceuticals and industrial mechanical air conditioning etc. equipment.

Also our Services Department are providing the following engineering services such as Indoor Air Quality measurements and studies.

Our current clients include commercial property managers, facility managers, buildings owners, banks, and hospitals, as well other air conditioning users.

QA/QC POLICY

The Mission:

Provide clients with exemplary service.

Be cost effective, committed and fiercely competitive.

Make safety a priority.

Be available anytime, anywhere.

Be profitable and efficient, providing for shareholders alike.

Since commencement the company is growing rapidly. In-hand projects had been increased in both number, activities and size of work entitled to our scope. This is because since commencement we adhere to updated technologies requirements, applying codes, standards in a state of art work style. This is all results in achieving our goals which are customer satisfaction and successful work finalization in all our executed projects all now running in a very satisfactory condition.

We are highly optimistic about expanding and upgrading in all ProService activities areas to meet the increased market need locally and abroad.

We are looking for a long term business venture in Qatar that increases gradually by time utilizing the huge available opportunities which is expected to last at least for the next ten years.
